Electoral Commission of Namibia

FOREWORD

As we stand on the brink of the 2024 Presidential and National Assembly elections, it is with great anticipation and a deep sense of responsibility that I, as the Chief Electoral and Referenda Officer of the Electoral Commission of Namibia (ECN), present the official release of the polling station locations. To ensure efficiency and in response to the total registered voters, we have established 2521 polling stations across the country in all 121 Constituencies and 35 Namibian Diplomatic Missions Aboard. These polling stations are the vital platforms through which our democracy will be exercised, enabling every eligible Namibian to participate in shaping the future of our beloved nation.

The electoral process is a cornerstone of our democratic governance, reflecting the collective will of our people. It is imperative that every citizen is informed and empowered to exercise their right to vote. To facilitate this, our team has worked diligently to ensure that polling stations are accessible, strategically located, and adequately equipped to accommodate a smooth and secure voting experience for all.

As we embark on this crucial journey, I urge all Namibians to remain engaged, informed, and vigilant. It is not only a right but a duty to participate in the electoral process. Together, let us ensure that the upcoming elections are a celebration of our democracy, showcasing the strength of our diverse voices and fostering unity in our shared aspirations.

I extend my heartfelt gratitude to all stakeholders involved in the electoral process, as well as the dedicated personnel of the Commission. Your commitment and collaboration are essential in ensuring free, fair, and transparent elections.

For a better understanding and interpretation of the electoral processes, we have included the frequently asked questions in this supplement for your reference.

May the spirit of democracy guide us toward a brighter and more inclusive future for Namibia.

Yours in Democracy

Peter Shaama
Chief Electoral and Referenda Officer

NAMIBIA VOTES 2024

PRESIDENTIAL AND NATIONAL ASSEMBLY ELECTIONS 27 NOVEMBER 2024

All registered voters are encouraged to exercise their democratic right to vote during the upcoming Presidential and National Assembly elections scheduled for 27th November 2024.

PRESIDENTIAL ELECTION

According to Article 28(2) of the Namibian Constitution, the President of Namibia is elected through direct, universal, and equal suffrage. The election uses a plurality system where the winning candidate must secure more than fifty percent of the votes. If no candidate achieves this majority in the initial round, a second round is held with the top two candidates from the first ballot. The candidate who receives the most votes in this second round will be elected.

NATIONAL ASSEMBLY ELECTION

These elections utilize a proportional representation system based on party lists. Each political party must submit a list containing a minimum of thirty-two (32) and a maximum of ninety-six (96) candidates. The seats are allocated based on the quota of valid votes per seat as outlined in Article 46(1)(a) of the Namibian Constitution.

ALLOCATION OF SEATS IN THE NATIONAL ASSEMBLY

To determine the number of seats a political party receives, the total votes cast for that party are divided by the quota of votes required per seat. For example, with 824,929 votes and 96 seats available, the quota is calculated as 824,929 divided by 96, which equals 8,593 votes per seat. The number of seats each party receives is determined by dividing their total votes by the quota, with any surplus votes potentially influencing seat allocation in subsequent rounds.

SPECIAL VOTING

To ensure no eligible voter is excluded, arrangements are made for voters including those at sea or abroad to cast their ballots on November 13, 2024, at designated locations such as Walvis Bay, Lüderitz, Oranjemund, and Namibian foreign missions, as per Section 64(2) (a-c) of the Electoral Act (Act No. 5 of 2014). Additionally, members of the Namibian Defence Force and Police working on November 27, 2024, will vote on November 13, 2024, at designated polling stations countrywide.

IMPORTANT INFORMATION:

1. All polling stations will be open from 07h00 until 21h00.
2. Persons with disabilities, expectant and nursing mothers and the elderly will be given priority in the queues.
3. Remember to take along your voters' card in order for you to be allowed to cast your vote.
4. For the purpose of the Presidential and National Assembly elections a voter may vote at any polling station in any constituency, irrespective whether the voter is registered in that constituency or polling station.
5. Voting will be done using two separate ballot papers - one for the Presidential elections and another for the National Assembly elections.

Any ballot paper for which no certainty can be determined will be rejected as provided for in terms of the Electoral Act.

Secondly, ballot papers are stacked in bundles per political party/candidate.

Thirdly, the total ballot papers cast for each political party/candidate is counted and allocated as such.

3. How is the winner for the Presidential elections determined?

In terms of Article 28(2) of the Namibian Constitution, the President of Namibia is elected through direct, universal, and equal suffrage. The election uses a plurality system where the winning candidate must secure more than fifty percent of the votes. If no candidate achieves this majority in the initial round, a second round is held with the top two candidates from the first ballot. The candidate who receives the most votes in this second round will be elected.

4. How are seats in the National Assembly allocated to parties?

The National Assembly elections utilize a proportional representation system based on party lists. Each political party must submit a list of not less than thirty-two (32) and not more than ninety-six (96) candidates. The seats are allocated based on the quota of valid votes per seat as outlined in Article 46(1)(a).

To determine the number of seats a political party receives in the National Assembly, the total votes cast for that party are divided by the quota of votes required per seat. **For example**, with 824,929 votes and 96 seats available, the quota is calculated as 824,929 divided by 96, which equals 8,593 votes per seat. The number of seats each party receives is determined by dividing their total votes by the quota, with any surplus votes potentially influencing seat allocation in subsequent rounds.
