FOREWORD

Fellow citizens,

The Constitution of the Republic of Namibia, Electoral Act, 5 of 2014, as amended, Regional Councils Act, 22 of 1992 and Local Authorities Act, 23 of 1992 provide the legislative framework for the conduct of Regional Councils and Local Authorities elections in Namibia.

The Regional Council elections are conducted according to the majoritarian or first-past-the post electoral system. In practical terms, this means that the candidate who receives the most votes per constituency will be elected as member of the Regional Council. In terms of the electoral framework, a person may be nominated to contest the regional council election.

- a) As a candidate for election as a member of a regional council if nominated as a member of a registered political party, by the political party, or
- b) As an independent candidate whose nomination is supported by at least 150 registered voters in the constituency for which the nomination is intended.

Whereas the Local Authorities elections are conducted in terms of the proportional representation system. The seats in the local authority election are allocated in proportion to the number of votes received. The more votes received by the party, organisation or association contesting in the elections, the more seats it will receive.

During the Local Authorities elections registered voters vote for the political party, organisation or association of their choice. The party, organization or association nominates its representatives to the local authority on the proportional list system. Local Authority Councillors are elected to serve the people in the various local authorities such as village councils, towns councils and municipalities across the country.

“

A person must be a registered voter whose name appears on the voters register in a certain constituency and/or local authority in order to be eligible to vote.

”

Therefore, as we stand on the brink of the 2025 Regional Councils and Local Authorities elections, it is with great pride and responsibility that I present the publication of the 696 teams, serving 4233 registration points for the upcoming Supplementary Voters' Registration (SRV) scheduled to be conducted from 04 – 19 August 2025 across the country. This statutory electoral activity is crucial in ensuring that every eligible citizen has the opportunity to participate in the upcoming 2025 Regional Councils and Local Authorities elections by registering to vote in their respective constituencies, town councils, municipalities and village councils. This democratic process ensures the election of public office bearers (Councillors) to serve on the Regional Councils and Local Authorities for the next five years.

As a Commission, we are committed to fostering a transparent, inclusive, and fair electoral environment which is the foundation that upholds the principles of democracy and empowering citizens.

The publication of these registration points signifies our dedication to making the voter registration process more accessible and efficient, particularly for those who may have missed previous registration opportunities, lost or damaged their voter's cards and who have recently become eligible to vote.

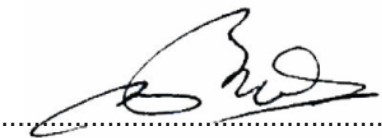

In an ever-evolving political landscape, it is essential that we engage each segment of our population. I encourage each Namibian citizen to take this opportunity seriously; your voice matters, and your vote is your voice. As a Commission, we made concerted efforts to ensure that the registration process is as accessible as possible by establishing numerous registration points throughout the country, providing both urban, rural and hard-to-reach communities with the means to register.

I therefore urge community leaders, civil society organisations, faith-based organisations and all stakeholders to assist in disseminating this information widely. Educate your friends, families,

and neighbours about the importance of registering to vote and participating in the electoral process. Together, we can fortify our democracy and ensure that it reflects the will of the people.

In conclusion, I would like to thank all those who continue to work tirelessly to ensure free, fair, and credible elections in Namibia. Our collective efforts in the lead-up to the 2025 elections will define the strength of our democracy. Let us embrace this opportunity with the seriousness it deserves, as we work together to build a brighter future for our country.

With warm regards,

REGISTRATION OF VOTERS

Primary Purpose of voter registration

Voter registration aims to ensure the inclusion of every eligible voter in the voter's register and to prevent those who are ineligible from voting. The accuracy of the voter register is vital in upholding the voting rights of all qualified individuals. People should not be denied registration as voters on the basis of race, sex, language or religion.

Supplementary Registration of Voters

Supplementary Registration of Voters (SRV) is provided for in terms of Section 38 of the Electoral Act No. 5 of 2014. The purpose of supplementary registration before the holding of an election is to register persons: who qualify to be registered as voters and who have not or could not register in the last general registration period, including those:

- who have since turned 18 years of age;
- who moved to another constituency;
- who qualifies to register for local authority area;
- whose voter registration cards are lost or damaged; and
- any other applicant persons who qualify for registration.

Persons who can register as voters in Namibia

Section 22 of the Electoral Act, provides the following criteria for persons to register as voters in Namibia:

- (a) Be a Namibian citizen;
- (b) 18 years or older; and
- (c) Be able to identify him/herself physically and by providing the required documents.

To register as a voter in a local authority area, a person must have resided in the jurisdiction of that specific local authority for a period of consecutive 12 months immediately before the election.

The Voters' Register

A voters' register is a list containing the names of all registered voters in all constituencies and local authority areas. The Electoral Act requires ECN to compile and maintain two registers:

- A National Voters Register compiled on a constituency basis of all voters in the country;
- A Local Authority Voters' Register of voters registered in a given local authority area.

Preparation and publication of provisional voters' register

In terms of Section 31, of the Electoral Act, the Chief Electoral Officer (CEO) must prepare a National Provisional Voters Register (PVR), in respect of voters registered in a constituency or local authority area.

This PVR must contain the names, residential addresses, and voter's registration numbers. The PVR is published as per the timeframes as provided for in the Electoral Act No.5 of 2014 as a notice in the government gazette specifying the:

- Places and times during which copies of the provisional registers are available for inspection by registered voters and;
- Period, within which objections may be made in respect of the names of voters appearing on any such register.

The Chief Electoral Officer must avail upon request to every registered political party or organisations/associations a copy of the provisional national or local authority voters' register.

Objections against names included in a provisional voters' register

In terms of section 32 of the Electoral Act, registered persons, political parties or organisations/associations may lodge, within the prescribed period of 14 days, after the publication of the provisional voters' register, an objection in writing to the electoral tribunal (designated magistrate offices) against the inclusion of the name of any other person on that register on the grounds that the person is not entitled or qualified to be registered as a voter or is not complying with the requirements in relation to residence.

Preparation, certification and publication of the voters' register

In terms of section 36 of the Electoral Act, the Commission must publish a notice in the Gazette stating that a voters' register has been completed and certified by the Commission; and specify the places where copies are kept public inspection.

Upon the publication of the notice, the CEO must avail free of charge to every political party, organisation/association a copy of the voters' register.
